We require photos of your problem area before your warranty claim can be processed. Please take a photo of your problem area and send it in with this form. Taking several photos from different angles will help speed up the process. If your claim is for “*body impressions*,” please place a golf ball or similar sized object in the deepest portion of the impression for the photo.

Use a straight edge, such as a broom handle, yard stick, etc., and lay it across the impression. Use a ruler or tape to measure the number of inches from the bottom of the impression to the straight edge. Do not measure into the stitch channel of the mattress (this is the natural indentation of the mattress).

Remember to take off all sheets, comforters and mattress protectors before taking any pictures.

Mail this form along with pictures to:
